

Calling All *New* Handgun & Rifle Shooters

The Demmer Center is committed to serving the public and training new shooting enthusiasts to promote shooting sports in the Greater Lansing area.

Do you have a family member, spouse or friend that can't stop talking about their shooting experience? Are you interested in learning more about revolver and pistol loading, unloading, cleaning, and general firearm safety? Would you be interested in learning more about a new or inherited .22 caliber pistol or rifle sitting unused in your home? If you answered YES to any of these questions, this class is for you!

At the end of this course the new shooter will be able to:

- Discuss and apply the NRA Fundamental and General Firearm Safety Rules,
- Safely handle all types of firearms
- Understand ammunition fundamentals
- Properly understanding the shot process and safely load & unload a firearm
- Learn to shoot in a comfortable, at your own pace, environment with patient and courteous instructors

Although you are encouraged to bring your own pistol or rifle, we shoot .22 caliber ammunition on the range. If you do not have a .22 caliber firearm, one will be provided. Ammunition is included, along with all safety equipment.

Your class will be taught by an NRA Certified Range Safety Officer.

No prior shooting experience or equipment is required. Bring a friend and learn how to shoot together.

Session Time: 1.5 hours

Please call (517) 884-0550 soon to schedule your session time.
